Reggie Pack

IT Director

With more than 15 years of IT experience, Reggie serves as IT Director at Workman Nydegger, overseeing the firm’s technology infrastructure, systems strategy, and operational IT initiatives. Over the course of his career, Reggie has advanced through many technology roles, developing a comprehensive understanding of both the technical and strategic aspects of IT management.

Reggie manages the firm’s network and server environments, drawing on his expertise in Cisco and Aruba network infrastructure and in enterprise server platforms, including Windows Server, Red Hat Enterprise Linux (RHEL), CentOS, and Ubuntu Server. In addition to infrastructure management, he brings strong experience in software development and automation with .NET, PowerShell, C#, SQL, and Python to improve operational efficiency and security across the firm.

Reggie works closely with firm leadership to support client services, protect sensitive information, and ensure the firm’s technology systems align with long-term strategic objectives.
