Carl T. Reed

Shareholder

With nearly three decades assisting clients in preparing and prosecuting patent applications, Carl Reed has also been involved in licensing patents.

Carl's experience in the industry includes preparing and prosecuting inventions related to all aspects of printing technologies, and wireless devices, networks, and protocols. He also assists clients in securing patents in networking technologies, software applications, cloud-based technologies, electrical and mechanical systems, optical devices, semiconductor processes, and integrated circuits.

Prior to practicing law, Carl studied electrical engineering at Brigham Young University, with an emphasis in computers.
