Michael J. Frodsham

Shareholder

With over two decades of experience, Michael Frodsham draws upon his background in biochemistry and his previous career as a genetic sequence analyst at Myriad Genetics to assist his clients in drafting and prosecuting patents in computer software, architectural, chemical, and medical arts, as well as the preparation and prosecution of patents, trademark and copyright applications. Additionally, Michael prepares patent opinions, due diligence analysis, and competitive guidance, as well as assists in litigation support in the U.S. and internationally for clients ranging from single inventors and medium sized companies to Fortune 500 clients. Recent projects have included multiple complex reissue applications in connection with various IPRs at the USPTO.

A frequent lecturer at local colleges and universities, Michael has delivered presentations directed to science, engineering, art, and business. He has also served as a mentor to multiple entrepreneur groups in various competitions.

When he’s not practicing law, Michael enjoys working with local youth groups, coaching baseball and football, and general travel with his family. With a background in music (viola), he enjoys teaching his kids and playing with them in various local orchestral groups. Michael also enjoys hiking and skiing in the beautiful Wasatch Mountain range.
