Levi Brown's practice involves the preparation and prosecution of patent applications in the computer, electrical, and mechanical arts and related strategic counseling. Mr. Brown has been registered as a Patent Agent since 2014 and currently practices before the United States Patent and Trademark Office. Mr. Brown joined Workman Nydegger in 2015 as a law clerk.

Prior to attending law school, Mr. Brown worked as an electrical engineer for the Bechtel Marine Propulsion Corporation (formerly Bettis Atomic Power Laboratory). There, he assisted in the development of a system-wide calibration program and designed a series of programs to automatically calibrate a large amount of equipment. He also designed various data acquisition systems to extract and synthesize test data.

During law school, he initially served as an associate editor for the Penn State Law Review. Later, he became a member of the managing editorial board.
