---

Michael J. Frodsham draws upon his background in chemistry and his previous career as a genetic sequence analyst at Myriad Genetics to assist his clients in architectural, computer, chemical, and medical arts, and in particular with the preparation and prosecution of patents, trademark and copyright applications. Additionally, Mr. Frodsham prepares patent opinions, due diligence analysis, and assists in litigation support in the U.S. and internationally for clients ranging from single inventors and medium size companies to Fortune 500 clients.

Mr. Frodsham frequently lectures on intellectual property topics at the local colleges and universities, having lectured in classes pertaining to science, art, and business. Mr. Frodsham has served as a mentor to multiple entrepreneur groups in various competitions.

Mr. Frodsham currently serves on Workman Nydegger's Board of Directors and co-chairs the firm's business development and recruiting committees.
