Dr. Charles (Chuck) A. Meeker holds advanced degrees and training in biochemistry/molecular biology/oncological sciences, which help him understand the unique challenges of IP prosecution in these and other fields. He regularly counsels clients in the U.S. and overseas on the procurement and protection of intellectual property rights, including patents, trademarks, trade dress, trade secrets, and copyrights. With an ability to speak and understand the Korean language and culture, Dr. Meeker has assisted his Korean clients with navigating the U.S. patent system. Dr. Meeker has worked on patents for pharmaceutical drugs and drug delivery systems, chemical compositions and systems, plant science and cell culture technology, PCR technologies and DNA melting curve analysis, fluorescence and luminescence imaging and monitoring, pathology diagnostic equipment and methods, hydrocarbon purification and treatment systems, liquid filtration materials and systems, and a variety of other products, systems, and methods.
