J. LaVar Oldham is an IP prosecutor. Clients appreciate LaVar's professional experience as an electrical engineer to help them in technical fields with the preparation and prosecution of patents, and with procuring and protecting copyrights and trademarks. His extensive experience includes helping clients in various industries including computer systems, IT, encryption, circuit design, fiber optics, complex communication systems, control systems, analog and digital signal processing, nightvision systems, content publishing, and various mechanical systems.

LaVar has a keen understanding of his clients' businesses—prior to becoming a lawyer, he was an engineer with Underwriters Laboratories.
